CONCLUSION

The use of laser technology has been widely used in dentistry. When used efficaciously and ethically, lasers have been an essential tool in many dental treatments. However, lasers have got its own limitations. It has never been the “magic wand” in medicine and dentistry. The futures of laser dentistry are bright as further researches are going on. The emergence of lasers for various applications in dentistry may influence the treatment planning of patients. Lasers can also prove to be blessing in disguise if not used safely and properly. As Aaron Rose Says, “In right light at right time everything is extraordinary.”
