#### PARASITIC AND VIRUTIC DISEASES

Man, like other animals, is ever a host to a great number of parasites: foreign organisms which cling to the skin or live inside the body. Most of these parasites caused us little discomfort, but a few are responsible for serious parasitic diseases, particularly in tropical countries. Malaria and sleeping sickness, for instance- and these are caused by small protozoan parasites consisting of a single cell- are still major causes of death in many parts of the world. Other parasitic disease like schistosomiasis, which are due to much larger worm- like parasites, cause relatively few deaths, but they seriously affect the well- being of more than two hundred million people.

In Western countries, the parasites of man are relatively unimportant, although livestock are seriously affected. We are much more familiar with infectious diseases caused by very small organisms called microbes: bacteria and viruses. To the biologist , these microbes are also parasites. But the diseases that they cause are, for convenience, not referred to as parasitic. Not so many year ago, quite a number of diseases caused by bacteria or viruses, like cholera, pneumonia, Smallpox, and poliomyelitis we among the foremost causes of deaths in Western countries. (prepared by iranarze.ir)

Nowadays causes of some of these diseases are so rare that medical students should feel fortunate ever to see them.

بیماری های انگلی و ویروسی

انسان هم مانند جانداران دیگر، میزبانی برای تعداد زیادی از انگل ها است: یعنی ارگانیسم های خارجی که به پوست می چسبند و یا در داخل بدن زندگی می کنند. اغلب این انگل ها باعث ناراحتی های کمی در ما می شوند اما تعدادی از آنها (خصوصاً در کشورهای گرمسیری) سبب بیماری های انگلی جدی می شوند. بعنوان مثال مالاریا و بیماری خواب (که توسط انگل های تک سلولی کوچکی ایجاد می شوند که فقط یک سلول دارند) هنوز هم از علل اصلی مرگ در بسیاری از بخش های جهان هستند. بیماری های انگلی دیگر همچون شیشستوز میازیس (که به علت انگل های کرم مانند بزرگتر ایجاد می شوند) سبب مرگ و میر نسبتاً کمی می شوند اما بر روی تندرستی بیش از ۲۰۰ میلیون نفر تأثیر جدی گذاشته اند.

در کشورهای غربی انگل های انسان نسبتاً غیرمهم هستند اما با این حال احشام به صورت جدی تحت تأثیر این انگل ها قرار می گیرند. ما آشنایی بیشتری با بیماری های عفونی داریم که توسط ارگانیزم های خیلی کوچکی با نام میکروب ایجاد می شوند: باکتری ها و ویروس ها.

از نظر زیست شناسان، این میکروب ها نیز انگل هستند. اما بخاطر سادگی (درک)، بیماری هایی که توسط آنها ایجاد می شوند بیماری های انگلی نامیده نمی شوند. نه چندان سال پیش، بیماری های زیادی توسط باکتری ها یا ویروس ها ایجاد می شدند: بعنوان مثال وبا، ذات الریه، آبله، و فلج اطفال که از مهمترین علل مرگ در کشورهای غربی هستند. امروزه علل برخی از این بیماری ها آنقدر نادر است که دانشجویان پزشکی اگر خیلی خوش شانس باشند می توانند آنها را ببینند.

## ۲- The last sentence means:

(وزارت بهداشت مهر ۱۴۰۲) (مجری جهاد دانشگاهی) (iranarze.ir)

- ۱) Nowadays a medical student may not have an opportunity to study some of these diseases during his or her training.
- ۲) There is no need to study these diseases any longer.
- ۳) It is impossible in our day for a medical student to come across a case suffering from one of these diseases.
- ۴) None of the above.

۲- جمله آخر به چه معنایی است:

- ۱) امروزه یک دانشجوی پزشکی ممکن است شانس این را پیدا نکند که برخی از این بیماری ها را در دوران تحصیل خود مطالعه کند.
- ۲) دیگر نیازی به مطالعه این بیماری ها نیست.
- ۳) امروزه برای یک دانشجوی پزشکی غیرممکن است که به بیماری برخورد کند که به یکی از این بیماری ها مبتلا شده باشد.
- ۴) هیچکدام از موارد بالا.

پاسخ سایت ایران عرضه: گزینه ۲

(طبق متن، امروزه علل برخی از این بیماری ها آنقدر نادر است که دانشجویان پزشکی اگر خیلی خوش شانس باشند می توانند آنها را ببینند. گزینه ۱ درست نیست چون دانشجوی پزشکی می تواند این علل را مطالعه کند فقط ممکن است آنها را در یک بیمار نبیند. گزینه ۲ هم درست نیست چون این بیماری ها هنوز هم باید مطالعه شوند. گزینه ۳ هم درست نیست چون برخورد کردن با یک بیمار مبتلا به یکی از این بیمار ها غیرممکن نیست، بلکه احتمال آن خیلی کم است)

(بانک ملی اردیبهشت ۱۴۰۲) (مجری سنجش) (iranarze.ir)

## PART B: Reading Comprehension

Direction: choose the number of the answer choice (۱), (۲), (۳) or (۴) that best completes the blank. Then mark it on your answer sheet.

Passage ۱:

Today almost all cars require fuel and many haters would not work without oil. In short more than ۸۵ percent of the global energy consumption is based on fossil fuel sources.i.e. oil ,gas and coal. But to get to these valuable resources of our plane, it

is necessary to drill deeper and deeper- no easy enterprise. Deep drilling technology (called "downhole drilling" in the field of oil and gas exploration) makes it possible to recover oil and gas from depth of more than ۲۵۰۰ m. By combining downhole drilling with directional drilling (dynamic position of a deep drill), previously unreachable oil reserves can be opened up, with drilling depth if currently approximately ۵۰۰۰ m and drill lengths of up to ۱۱۰۰۰ m.

Oil is a limited resource, but is an integral part of our modern way of living. Therefore, in many regions of the world, the black gold is recovered from deep inside the earth. In the USA, Russia, England, China and the Middle East, many oil and gas recovery plants, both onshore and offshore, produce several thousand barrels of petroleum or natural gas every day. Until February ۲۰۰۸, the longest drill hole for oil recovery was ۱۱۶۸۰ m long. It was drilled in ۲۰۰۷ in the course of opening up the Chayvo oil field offshore from the north-eastern coast of Sakhalin (Russia). This oil field is a approximately ۲۵۰۰ m deep, but it is several kilometers from the coast. These oil reserves are opened up mainly by means of directional from onshore.

۴- The word "it" in paragraph ۲ refers to .....

(وزارت نفت اردیبهشت ۱۴۰۲) (مجرى سنجش) (iranarze.ir)

۱) the Chayvo oil field

۲) the coast

۳) oil recovery

۴) the course

پاسخ سایت ایران عرضه: گزینه ۳

#### Part B: Reading Comprehension

Direction: Read the following passage and select choice (۱), (۲), (۳) or (۴) that best answers each question. Then mark your answer on your answer sheet.

If you think of the job's robots could never do, you would probably put doctors and teachers at the top of the list. It's easy to imagine robot cleaners and factory workers, but some jobs need human connection and creativity. But are we underestimating what robots can do? In some cases, they already perform better than doctors at diagnosing illness. Also, some patients might feel more comfortable sharing personal information with a machine than a person. Could there be a place for robots in education after all?

British education expert Anthony Seldon so. And he even has a dare for the robot takeover the classroom: ۲۰۲۷. He predicts robots will read students' faces, movements and maybe even brain signals. Then they will adapt the information to each student. It's not a popular opinion and its unlikely robots will ever have empathy and the ability to really connect with humans like another human can.

One thing is certain. though. A robot teacher is better than no teacher at all. In some parts of the world, there aren't enough teachers and ۹-۱۶ percent of children under the age of ۱۴ don't go to school. That problem could be partly solved by robots because they can teach anywhere and won't get stressed or tired or move somewhere for an easier, Higher-paid job.

Those negative aspects of teaching are something everyone agrees on. Teachers all over the world are leaving because it is difficult job and they feel overworked. Perhaps the question is not "Will robots replace teachers" but "How can robots help teachers?" office workers can use software to do things like organize and answer emails, arrange meeting and update calendars. Teachers waste a lot of time doing non-teaching work. Including more than ۱۱ hours a week marking homework.

۵- Where does the following sentence best fit into the passage? (prepared by iranarze.ir)

(نهمین آزمون فراگیر دستگاه های اجرایی مشترک با آموزش و پرورش گروه پنج تیر ۱۴۰۱) (مجرى سنجش) (iranarze.ir)

- ۱) End of paragraph ۳      ۲) End of paragraph ۴      ۳) End of paragraph ۱      ۴) End of paragraph ۲

پاسخ سایت ایران عرضه: گزینه ۲

با توجه به جمله "Teachers waste a lot of time doing non-teaching work. Including more than ۱۱ hours a week marking homework" با توجه به این جمله آخر پاراگراف ۴ با متن سوال مرتبط است بنابراین با توجه به توضیحات گزینه ۲ پاسخ صحیح می باشد

## Part B: reading comprehension

**Directions: read the following passage and select the choice (۱), (۲), (۳), or (۴) that best answers each question. Then mark your answer on your answer sheet.**

Attending a good pre-school and primary school has more impact on children's academic progress than their gender or family background. The Institute of Education study found that the quality of teaching children receive is more important than their gender or family income. A high quality pre-school followed by an academically effective primary school gives children's development a significant boost. But children also need a stimulating early years home- learning environment to build upon. The effective Provision of Pre-School Education project tracked almost ۳,۰۰۰ children from the time they started pre-school until age ۱۱. While all children benefit from a good pre-school, high quality is particularly important for children with special educational needs, those with mothers with low qualifications, or children who come from unstimulating homes.

At primary school, the quality of teaching affects both children's social behavior and intellectual development. The researcher found much variation in the quality of teaching at age ۱۰ and said this had a more powerful impact on children's academic progress than their gender or whether or not they receive free school meals.

Children who attend a more academically effective primary school show better attainment and progress in key stage ۲ (ages ۷ to ۱۱) than children with similar characteristics who attend a less effective school. But home matters too. A stimulating home learning environment at age ۳ to ۴ is linked to long-term gains in children's development and has an equal impact to the mother's qualification level

۶-Where does the following sentence best fit into the passage?

(نهمین آزمون فراگیر دستگاه های اجرایی مشترک با آموزش و پرورش گروه شش نبر ۱۴۰۱) (مجرى سنجش) (iranarze.ir)

**The higher their parents' qualification levels, the more likely children are to do well at school and be good socially at age ۱۱**

- ۱) End of paragraph ۱      ۲) End of paragraph ۲      ۳) End of paragraph ۳      ۴) End of paragraph ۴

پاسخ سایت ایران عرضه: گزینه ۲

با توجه به جمله "While all children benefit from a good pre-school, high quality is particularly important for children with special educational needs, those with mothers with low qualifications, or children who come from unstimulating homes" که نشان دهنده شایستگی مادران در تربیت فرزند است در انتهای پاراگراف ۲ به آن اشاره شده است بنابراین گزینه ۲ پاسخ صحیح می باشد

**۷- they did only had my computer for three weeks when I had to have the hard drive.....**

(بانک ملت دی ۱۴۰۱) (ایران آزمون) (iranarze.ir)

- ۱) processed      ۲) restored      ۳) retakes      ۴) revived

پاسخ سایت ایران عرضه: گزینه ۱

گزینه ۲ به معنی امتحان کردن، گزینه ۳ به معنی امتحان کردن و گزینه ۴ به معنی احیا کردن با توجه به ترجمه جمله "آن ها فقط ۳ هفته کامپیوتر من را در اختیار داشتند، درست زمانی که من می بایستی هارد دیسک را پردازش می کردم" صحیح نیستند بنابراین گزینه ۱ به معنای پردازش کردن پاسخ صحیح می باشد.

### Reading comprehension

I remember my first day at school very well. I knew the school quite well because my older sister, Sandy, went there and every day, dad and I met her at the school gate after school. Every day, she ran out of the school with her friends. She often carried a painting. I felt jealous. I wanted to paint too!

I was five years old when I started school. Most children in my class started school in September, but I started school in January, when I was five years old, because my birthday is in December. Three other kids started school on the same day as me. I was excited about my first day. I had my new uniform: a black skirt, a white t-shirt and green jumper, and a new red bag. When we arrived that day, a teacher met the new children at the school gate. Dad hugged me and said goodbye. I stood with the other children. I didn't talk to them because I was too nervous. Then, Mrs Wilson took us to our classroom. All the other children were already there. They looked at us when we entered the room. When thirty children looked at me, I started to cry! But I wasn't upset for long. I sat with the other children on the carpet and the class teacher, Miss Holland, read us a story. Later, we drew pictures with colored pencils, and at break time, I made friends with a girl called Megan. At the end of the day. I ran to the school gate with Megan and my picture, just like Sandy always did.

اولین روز مدرسه ام را به خوبی به یاد دارم. من مدرسه را به خوبی می شناختم زیرا خواهر بزرگترم سندی به آنجا می رفت و من و پدر هر روز بعد از مدرسه او را در مدرسه ملاقات می کردیم. او هر روز با دوستانش از مدرسه بیرون می رفت. او اغلب یک نقاشی حمل می کرد. احساس حسادت کردم منم میخواستیم نقاشی کنم! پنج ساله بودم که مدرسه را شروع کردم. اکثر بچه های کلاس من از سپتامبر ماه شروع به مدرسه کردند، اما من از ژانویه، زمانی که پنج ساله بودم، مدرسه را شروع کردم، زیرا تولد من در دسامبر است. سه بچه دیگر هم در همان روز مثل من مدرسه را شروع کردند. روز اول هیجان زده بودم. من یونیفورم جدیدم داشتم: یک دامن مشکی، یک تی شرت سفید و رویوش سبز و یک کیف قرمز جدید. آن روز وقتی رسیدیم، معلمی با بچه های جدید در مدرسه آشنا شد. پدرم بغلم کرد و خداحافظی کرد. من با بچه های دیگر ایستادم. چون خیلی عصبی بودم با آن ها حرف نزدیم. سپس خانم ویلسون ما را به کلاس درس برد. همه بچه های دیگر قبلاً آنجا بودند. وقتی وارد اتاق شدیم به ما نگاه می کردند. وقتی سی دانش آموز به من نگاه کرد، شروع کردم به گریه کردن! اما مدت زیادی ناراحت نبودم. با بچه های دیگر روی فرش نشستیم و معلم کلاس، خانم هالند، برای ما داستان خواند. بعداً با مداد رنگی نقاشی کشیدیم و در وقت استراحت با دختری به نام مگان دوست شدم. در پایان روز من با مگان و عکسم به سمت در مدرسه دویدم، درست مثل سندی.

## Part B: Reading Comprehension

Directions: Read the following passage and select the choice (۱), (۲), (۳), or (۴) that best answers each question. Then mark your answer on your answer sheet.

Are you healthy? Before answering, think about what you understand by "health". It doesn't just mean freedom from disease. Health is a measure of how sound and vigorous both your body and mind are. A truly healthy person has a sense of physical and mental well-being. Our health is precious and easily damaged. But there is much we can do to maintain it. Eating well, exercising, and getting enough sleep all help keep us healthy. Standards of health and health hazards are different from place. In some parts of the world, many people have many health problems because they are poor, hungry, and without clean drinking water. In other places, stress at work, lack of exercise, and too much food bring their own health problems, such as heart disease.

Food plays a large part in our health. A healthy diet includes fresh fruit and vegetables, meat, fish, bread, eggs, and milk, but not too many fatty, salty, or sugary. Good health also depends on regular exercise because it keeps as fit. Regular exercise improves blood circulation. Makes the heart and lungs work well, and keeps the strong and toned. It is good for the brain as well as the body. And makes on feet in start and a cool-down sequence at the end to prevent strain on muscles.

London is a famous and historic city. It is the capital of England in the United Kingdom The city is quite popular for international tourism because London is home to one of the oldest standing monarchies in the western hemisphere. Helen and Nancy recently traveled to London. They were very excited for their tripe because this was their first journey overseas from Canada.

Small towns and villages are becoming more and more popular; people have more space and most houses have gardens. But problems are growing. Lots of people want to live in the country and work in the city: so more and more people travel long distances each day, to go to work. of course they don't use buses (they are too slow) or trains (they don't stop in the country): they use cars. And although they live in the country, they use supermarkets and good fast roads, but they don't want to see them or hear them. Besides, lots of young people say that life in the country is boring: there is not enough to do, and there are not enough activities and excitements.

**DIRECTIONS:** read the following passage and select the choice (۱), (۲), (۳) or (۴) that best answers each question. then mark the correct choice on your answer sheet

Medical equipment prior to and even during the scientific revolution was based on classical Greek and roman theories about science, which were not based on science at all, but on philosophy and superstition, human health was viewed as a balance of ۴ internal humors in the body. the ۴ humor- blood, yellow bile, black bile, and phlegm- were analogous to the ۴ elements of the universe to classical thinkers: fire, air, water, and earth. Aliments, both physical and mental, were caused by an imbalanced of humors. The ideal mind and body balanced all four humors, gracefully. To heal, doctors prescribed foods or procedures which would balance the fluids in the body. Some of the prescriptions seem to make sense. fevers, for example were treated with cold, dry temperature to combat the hot, wet overstimulation in the body. but when that failed, often the next step was bloodletting. unnecessary purging and enemas were also common cures, which have helped some people, but also might have caused more problems than they solved. George Washington's death has recently been attributed, not to the strep throat he probably had as he died, but to the bloodletting and mercury enema given to him cure it. Not-quite-scientific medical cure are still available and used by many even today.

if you are like most people, your intelligence differs from season to season. You are probably a lot sharper in the spring than you are at any other time of the year.
